

NO OTHER LEADING MOTOR OIL HELPS KEEP ENGINES CLEANER¹

PENNZOIL PLATINUM® DOES THE DIRTY WORK FOR YOU

ALL ENGINES GENERATE DIRT.

Every time your engine is running, by-products from combustion contaminate your engine oil. If the contaminants build up in the oil, they can settle and create sludge and deposits in the engine. Using low quality motor oil, neglecting to change your oil, and maintenance issues can lead to sludge forming in your engine.

Dirty Engine Head:
Ford Crown Victoria V8 Engine after 9 days subjected to Sequence VG engine test using industry minimum standard motor oil

CLEAN ENGINES PERFORM BETTER.

Pennzoil Platinum® Full Synthetic motor oil helps prevent deposits from forming and helps clean out sludge lesser oils leave behind.² No other leading motor oil helps keep engines cleaner.³

Clean Engine Head:
Ford Crown Victoria V8 engine after 2 years and 168,000 miles with regular oil changes in a NYC Taxi cab using Pennzoil Platinum® motor oil

² Based on severe sludge clean-up test using SAE 5W-30.
³ Based on Sequence VG sludge test using SAE 5W-30.

MOTOR OIL REIMAGINED™
